Our Pledge

Dear Parents,

For the past 30 years, I have endeavoured to provide no-frills quality tuition at affordable rates.

My team of teachers strives to stay relevant and today, we have several implements to support each individual student in his/her learning journey.

- ✓ Curriculum that is adjusted frequently based on students' needs
- ✓ Optimal class size for learning (according to subjects)
- ✓ Open communication with tutors
- ✓ Up-to-date teaching materials
- ✓ Mock exams to simulate real conditions
- ✓ One-to-one coaching for various needs
- ✓ Online classes for Creative Writing

The academic rigour at the centres provides students with a strong foundation in core literacy and numeracy. At the same time, we recognise that every child is unique. We strive to nurture students with patience and creativity to achieve their full potential.

Regards,
Mdm Yip

OUR TEAM OF TEACHERS

Teacher Yvonne (Primary Creative Writing, Elite Creative Writing & Lower Secondary English)

Teacher Yvonne has a Bachelor's degree with honours in Social Sciences. She is passionate about child psychology and education and uses effective and unique lesson materials which she creates on her own.

Teacher Theo (Primary Creative Writing & Secondary English)

Teacher Theo is an experienced educator who has taught in MOE schools for 6 years. Students find his dynamic teaching style engaging, and benefit from how he frames concepts with clarity. A recipient of the NIE Caring Teacher Award, he firmly believes in helping students reach their potential.

Ms Farah (Primary Creative Writing & English Paper 2)

Ms Farah is a passionate educator who has more than 6 years of teaching English under her belt. Her students gain confidence in communication skills under her guidance, at the same time honing their critical thinking skills. Ms Farah also uses newspaper articles in her lessons and shares general knowledge and current affairs.

Ms Jessie Ong (Primary English Paper 2 & Lower Secondary English)

Ms Jessie Ong has more than 30 years of teaching experience and is up-to-date on the current syllabus and teaching techniques. Her students are highly motivated and show improvement in both their academic results and their attitude towards learning.

Ms Shah (Secondary English)

Ms Shah is an ex-HOD (English) with over 20 years of teaching experience, and uses well-developed teaching materials and methods. She specialises in Secondary English and focuses on writing skills.

Teacher Lynn (Primary Math)

Teacher Lynn has over 10 years of experience teaching mathematics in group settings. She specialises in using heuristics-based approaches to teach concepts, focusing on developing problem-solving skills and critical thinking. Additionally, she offers tailored instruction for her students, adapting lessons to suit individual learning needs.

Ms Li (Primary & Secondary Mathematics)

Ms Li has been teaching Mathematics for over 10 years and is familiar with the Mathematics syllabus. She loves interacting with children and will try different methods to let the children understand all the Math topics.

OUR TEAM OF TEACHERS

Ms Fernandez (Primary/Secondary Mathematics & Chemistry)

Ms Fernandez has taught Maths for more than 10 years and is well-versed in all streams of the Maths syllabus. Her teaching methodology consists of going through topics from scratch to bridge the gaps in understanding, providing in-depth explanations to worksheets as well as providing detailed mind-maps of formulae and key concepts.

Ms Fernandez is also well-versed in all streams of the Chemistry syllabus. Her teaching methodology consists of going through topics from scratch to bridge the gaps in understanding, providing in-depth explanations to worksheets and key concepts.

She also uploads videos after lessons so that her students can revisit topics at their own time.

Teacher Jenna (Primary Science)

Many children find Tr Jenna amicable, thoughtful and fun. She is an MOE trainer who has been teaching in Primary and Secondary schools since year 2000. She teaches Science Olympiad and Chinese and has been with Chinese Development Assistance Council (CDAC) Science programmes for many years. She puts lots of thought into how she presents the material. She paces the class just right so the students feel challenged yet not overwhelmed. She is always patient and eager to help and encourage her students to try.

Mdm Wu (Primary Chinese)

Mdm Wu has 7 years of tutoring experience in local tuition centres. She is good at using vocabulary learned in class to interact with students, improving their understanding of Chinese. She helps students maintain interest with current events and stories to consolidate vocabulary. She often integrates games and other interactive methods in the classroom to allow students to improve their writing skills through oral expression.

Teacher Liyuan (Primary & Secondary Chinese)

Tr Liyuan graduated from Normal University majoring in Chinese Language and Literature (师范大学汉语言文学专业). She has more than 10 years of tutoring experience and has taught MOE training camp courses. She is very familiar with primary and secondary school textbooks and exam content. She pays attention to the cultivation of students' study habits and learning, and enables students to master writing skills through interesting language skills.

Teacher Maverick (Secondary Science)

Teacher Maverick is able to relate to the students at heart and mentor each child individually. With a unique perspective and effective teaching methods, he aims to make complex scientific concepts accessible and enjoyable. He'll explore the wonders of science, nurturing curiosity and excelling examinations!

Primary Creative Writing

"You can make anything by writing." – C.S.Lewis

Mdm Yip started teaching creative writing in 1995. She designs this programme with an ambitious goal in mind – to make sure the students have a solid vocabulary bank so they can enjoy creating and writing compositions.

During the lessons, the students learn:

- how to analyse the topic and get its main focus
- how to craft an interesting composition
- writing techniques
- effective words and phrases
- what makes a good composition

Students will write out a composition of the day's topic in class, with the given guide or using their own ideas. Each piece of work is marked and returned the following week.

Our teachers: Mdm Yip, Tr Yvonne, Tr Theo, Tr Farah

CONGRATULATIONS TO THE FOLLOWING STUDENTS ON THEIR STELLAR RESULTS:

P5 EOY PAPER 1 2025

Isabelle Chey (Teck Ghee) 34/36, 14/14
Lim bit Na (Northland) 34/36, 13/14
Marshall Teo (Ai Tong) 34/36, 12/14
Yocheved Chia (PLMGS) 34/36, 13/14
Anna Yan (Raffles Girls) 32/36, 12/14
Hareen Seo (Townsville) 32/36, 11/14
Justin Wan (Teck Ghee) 32/36, 14/14
Aida Malayapillay (Marymount) 31/36, 12/14
Dong Jun Xin (Cat High GEP) 31/36, 13/14
Elena Tan (Chongzheng) 31/36, 11/14
Angel Chen (Ai Tong) 30/36, 14/14
Kayla Koh (Teck Ghee) 29/36, 13/14

P6 PRELIMS PAPER 1 2025

Mabel Pang (CHIJ Toa Payoh) 35/36
Aden Choo (Teck Ghee) 34/36
Joelle Andika (KCPPS) 34/36
Hai Phong (Teck Ghee) 34/36
Calista Lua (Elias Park) 33/36
Chin Jun Hong (KCPPS) 33/36
Ho See Wai (CHIJ Kellock) 33/36
Mavis Low (KCPPS) 33/36
Bryce Soh (KCPPS) 32/36
Daniel Ong (Teck Ghee) 32/36
Bao Tong Yao (Pei Chun) 31/36
Deslyn Lin (Marymount) 31/36
Lauren Loh (KCPPS) 31/36
Lee Si Ying (KCPPS) 31/36
Ng Xin Ying (KCPPS) 31/36
Nicole Naing (KCPPS) 31/36
Raenee Lee (Rosyth) 31/36
Ashley Ng (Nanyang) 30/36
Cui Jiayi (Rosyth) 30/36
Faith Siew (KCPPS) 30/36
Joyce Li (Nanyang) 30/36
Katelyn Gim (KCPPS) 30/36

Primary English Paper 2

The lessons are planned with progressive learning in mind. Each section of the English Paper 2 will first be introduced to the students with the basic rules and concepts. Teachers will then provide students with the knowledge required before they dive into practices and apply the skills taught.

By tackling the sections individually, the students will master the skills and familiarise themselves with the examination format. This boosts their confidence when they face a full paper during an examination.

During the lessons, the students go through:

Academically

- (a) Grammar Rules
- (b) Vocabulary
- (c) Comprehension Cloze
- (d) Comprehension Open-Ended
- (e) Synthesis and Transformation

Non-Academically

- (a) Learning with a goal in mind
- (b) Motivation and encouragement to excel
- (c) Training to focus
- (d) Building up stamina to handle examinations

We believe in working closely with parents to help students excel. Parents will be updated frequently on students' progress.

Our teachers: Ms Jessie Ong, Tr Farah, Tr Yvonne

Secondary English

Through our carefully curated in-house curriculum, we have developed up-to-date materials that target syllabus focus areas. Students will be taught to tackle a variety of questions at varying levels of difficulty. They will have plenty of practice to get them well-equipped for, and to answer the English paper with precision.

We have deduced the skills MOE now focuses on since the previous syllabus change – evaluative and critical thinking skills are in greater demand. Not only are students gradually nudged with guided questions, but also encouraged to think independently during lessons. Trust us to build students' confidence in the grasp of the English language.

Our teachers: Ms Shah, Tr Theo, Tr Yvonne

Primary Mathematics

Our Maths materials are specially developed by our teachers. They cater to the topics students have been taught in school as well as to individual learning pace. New mathematical concepts will be introduced every year.

We aim to expose students to a wide range of questions, and teach them skills to handle even higher-order thinking questions.

With revision practices and exam-simulated assessments, students will be fully equipped with techniques to identify mathematical concepts and tackle school exams with ease and confidence.

Our maths programme aims to cover:

- Mathematical concepts
- Higher-order thinking questions
- Revision practices and exam-simulated assessments

Our teachers: Ms Fernandez, Ms Li, Tr Lynn

Secondary Mathematics

Our Secondary Maths programme has:

- Detailed notes and examples which students can refer to when attempting questions at home or in school
- Worksheets that comprise questions of varying levels of difficulty – to help students grasp basic concepts, then build on these basics to tackle application questions
- Whiteboard workings and videos that are uploaded weekly into the group chat, to allow students to revisit topics at their own pace in the comfort of their own homes
- Tutors who are readily available to help students via WhatsApp when they face difficulties in their Maths at school

Our teachers: Ms Fernandez, Ms Li

Primary & Secondary Science

Features of our science programme:

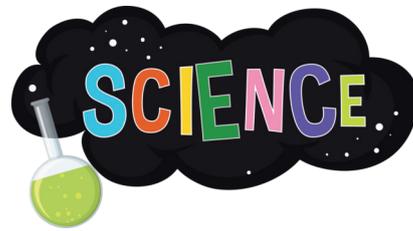

- Comprehensive notes and ample practices
- Adherence to school syllabus
- Interactive style, open communication
- Answering techniques for different types of questions

Our aim is for students to:

- Incorporate Science concepts into real life situations which are tested
- Develop the skill sets to answer with relevant key words
- Identify & categorise the science topics to show how they connect

Our teachers: Tr Jenna, Tr Maverick

Primary & Secondary Chinese

Our Chinese lessons cover both Writing and Paper 2.

We incorporate the following to make learning effective:

- Practices to gain mastery of the vocabulary and skill sets in the textbook
- Reading-aloud time to be familiar with the language
- Composition writing to practise application of skill sets
- Reading of articles and stories

Our teachers: Tr Liyuan, Mdm Wu

HEAD START FOR SECONDARY ONE'26

Mdm Yip's Secondary One Head Start programme aims to introduce the Secondary syllabus to students before the start of their new journey.

Getting exposed to the new topics will help students be ahead of their peers and gain confidence to excel.

English	Mathematics
<ul style="list-style-type: none"> - Editing skills and practice - Comprehension (Narrative) answering techniques and practice - Vocabulary building 	<ul style="list-style-type: none"> - Factors and Multiples - Basic Algebra

ENGLISH HEAD START

P5 & P6 2026

BY MS JESSIE ONG

Boost your confidence and strengthen English Skills before the New School Year begins!

Comprehension Open-Ended:

Learn to identify key ideas, infer meaning, and answer precisely for full marks

Comprehension Cloze:

Build strong vocabulary and grammar sense to fill in blanks with confidence

Grammar Essentials:

Revisit tricky grammar rules through targeted exercises and practice questions

Synthesis & Transformation:

Practise connecting ideas smoothly and rephrasing sentences accurately

Topic/Levels	P5	P6
Grammar	12/12 (Fri) @ Blk 509 1.00pm - 3.00pm	-
Synthesis & Transformation	-	26/12 (Fri) @ Blk 509 1.00pm - 3.00pm
Comprehension Cloze	10/12 (Wed) @ Blk 509 1.00pm - 3.00pm	8/12 (Mon) @ Blk 238 1.00pm - 3.00pm & 22/12 (Mon) @ Blk 509 1.00pm - 3.00pm
Comprehension Open-Ended	11/12 (Thu) @ Blk 509 1.00pm - 3.00pm	9/12 (Tue) @ Blk 238 1.00pm - 3.00pm & 23/12 (Tue) @ Blk 509 1.00pm - 3.00pm

FEES: P5 \$70 / P6 \$80 PER SESSION

S3 2026

HEADSTART FOR A.MATH

To help students transition smoothly into A.Mathematics next year, Ms Fernandez will be running a Head start Programme that introduces the first topic from next year's syllabus.

Lesson	Date/Time	Content
1	11/11 (Tue) 5.30pm-7.00pm	Completing the Square
2	13/11 (Thu) 5.30pm-7.00pm	Graph Sketching (using Completing the Square and Box method)
3	18/11 (Tue) 5.30pm-7.00pm	Polynomials Identities
4	20/11 (Thu) 5.30pm-7.00pm	Polynomials Remainder and Factor Theorem
5	26/11 (Tue) 5.30pm-7.00pm	Partial Fractions Linear and Quadratic Methods
6	27/11 (Thu) 5.30pm-7.00pm	Partial Fractions Repeated and Hybrid Methods

Location: Blk 238, Bishan Street 22

Fees: \$300 for 6 sessions

TO REGISTER, CONTACT US AT:

96931068 [BLK 509] / 93898611 [BLK 238]

S3 2026

INTRODUCTION TO CHEMISTRY

To facilitate a seamless transition into Combined and Pure Chemistry next year, Ms. Fernandez is conducting a Headstart programme covering the first topic in Chemistry.

Lesson	Date/Time	Content
1	8/11 (Sat) 5.00pm-6.30pm	Understanding the Periodic Table (1): <ul style="list-style-type: none"> • Groups vs Periods • Metals, Transition metals, Non-metals • Metallic oxides (basic), Non-metallic oxides (acidic) and Amphoteric Oxides • Group VII (diatomic), Group VIII (noble gases)
2	11/11 (Tue) 4.00pm-5.30pm	Understanding the Periodic Table (2): <ul style="list-style-type: none"> • Atomic Numbers vs Mass number • Protons, Neutrons and Electrons • Nucleus of the atom
3	15/11 (Sat) 5.00pm-6.30pm	Understanding the Periodic Table (3): <ul style="list-style-type: none"> • Ions (charges) • Ions (common cations and anions) • Elements vs Ions vs Isotopes
4	18/11 (Tue) 4.00pm-5.30pm	Using the Periodic Table (1): <ul style="list-style-type: none"> • Drawing valence electrons • Identifying the bonding: Covalent vs Ionic • Drawing covalent and ionic bonding
5	22/11 (Sat) 5.00pm-6.30pm	Using the Periodic Table (2): <ul style="list-style-type: none"> • Constructing chemical equations with state symbols from word equations
6	25/11 (Tue) 4.00pm-5.30pm	Using the Periodic Table (2): <ul style="list-style-type: none"> • Identifying trends in Group I and Group VII • Determining an element's reactivity in relation to another element

Location: Blk 238, Bishan Street 22

Fees: \$300 for 6 sessions

TO REGISTER, CONTACT US AT: 96931068 [BLK 509] / 93898611 [BLK 238]

Testimonials

Ms Li is kind and engaging, and her lessons are interesting, which makes E.Maths fun to learn. I improved from a C6 in last year's EOY to A1 in this year's EOY!

Seraphina Teo, Christ Church (Sec)

Tr Yvonne is very comical and makes the lessons very engaging. She teaches a lot of strong vocabulary, and motivates us to learn. For my prelims, I received a score of 35/36 for my composition.

Mabel Pang, CHIJ TPY (Pri)

吴老师非常有耐心，而且很擅长把复杂的概念讲解得简单易懂。她也经常鼓励和关心我。我期末考试了84.5分。

P4 Iain Lai, Maris Stella (Pri)

Ms Ong's patience, encouragement, easy-to-understand explanations, willingness to assist children in finding their strengths and to instil children's interest in learning have helped Lieke significantly.

Parent of Lieke, Ai Tong (Pri)

I would recommend taking **Tr Theo's** class as I never really see a teacher put in so much effort to teach us. I can tell from the work he prepares for us, the way he explains to us and how he engages all of us. I like how he gave everyone a chance to answer questions as I am pretty shy to answer compared to others. I felt that no student was left behind or could not catch up with his lessons. Although I only attended class for about 6 months, I improved drastically from D7 to B3! Thank you, Tr Theo!

Ashley Oh, private candidate (Sec)

Tr Lynn makes the lesson interesting and makes sure that we understand the topic before we do the worksheet. I like that we learn new topics faster and can do revision for EOY earlier. The lessons and the worksheets helped me improve. For my EOY, I scored 83/100.

Jeannie Khoo, Ang Mo Kio (Pri)

Ms Fernandez goes through the answer very clearly so I can understand difficult questions. Knowing how to answer those types of questions helps me improve for P6 Maths. I enjoy that she sometimes makes jokes too.

Ansel Yeo, Townsville Primary

I like that **Liyuan 老师** is very interactive during her lessons, and manages to relate our content to real-life examples in news articles. I really enjoy her engaging lessons. The notes provided and her clear explanations helped me to improve from a B4 to B3 this year.

Rylie Chen, Peirce Secondary School

I used to struggle with and fail Science in P3, until I joined **Tr Jenna's** class. She has extraordinary patience and a gift for making complex ideas simple and engaging. She sparked a curiosity in me and motivated me to work hard. For my P4 EYE, I scored 88.5%!

Tedd Ouyang, Catholic High (Pri)

Ms Fernandez helped me understand Maths concepts that I struggled with, and she definitely helped me to improve my study strategies. She makes the lesson fun and very interactive. I find her lessons very beneficial. She explains every topic in a way that I can fully understand.

Darwisyah Rasheed, Madrasah Al-Arabiah Al-Islamiah (Sec)

In only three months, my grades have improved from an AL2 (86%) to an AL1 (92%). I have learnt many techniques to answer Synthesis & Transformation questions as well as the Comprehension section. As a result of the many challenging papers I've tackled, my weakness, Comprehension Cloze, has now become my strength. Due to **Ms Farah's** effective teaching methods, I have learnt many ways of answering different variations of Paper 2 questions. I would certainly recommend going for Ms Farah's English Paper 2 class if you ever need a reliable English tutor!

Hazel Cheah, Sembawang Primary

Ms Shah is a very patient and interactive teacher. She would constantly remind us of important skills right before the exam so we would not forget. I enjoy the hard questions she poses to us to get us even more prepared for exams. The many practices and notes helped me to improve and I got A2!

Lee Yuan Juin, Maris Stella (Sec)

I like how **Tr Maverick** gives me enough time to do the worksheets and goes through them with me. He is very patient and the explanations given for each answer helped me to do better.

Seah I-Ann, CHIJ St Joseph's Convent (Sec)
